

GEETIKA BHARAT BISHT

UI/UX Designer & Front-End Developer

+91 7349408965 | geetikabhish@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

UI/UX Designer with 1.6 years of experience leading end-to-end product design from stakeholder discovery and information architecture to high-fidelity prototyping complemented by hands on front-end development to bring designs into production. Replaced manual, spreadsheet and process heavy workflows with intuitive digital systems, cutting processing effort by 30-60%.

WORK EXPERIENCE

Associate | MResult Services Pvt Ltd (Remote) Jul 2025 – Present

- **Legal Vendor Management System** - Spearheaded stakeholder interviews and architected the information architecture, prototyping, and React-based front-end development for a legal-firm web application, replacing manual spreadsheet and email workflows to improve spend transparency and streamline vendor decision-making cutting manual workload by ~50%.
- **Talent Repository Platform** - Translated stakeholder requirements into wireframes, prototypes, and SharePoint React (SPFx) front-end components built with reusable design patterns for an HR platform spanning skill tracking, capability assessment, and bench management - cutting manual workforce-tracking effort by ~30%.
- **Loan Management System** - Partnered with cross-functional stakeholders to define requirements and architected wireframes, prototypes, and SharePoint React (SPFx) front-end components for a loan servicing platform covering task tracking, financial reporting, and covenant monitoring - reducing manual Excel-based workload by ~40%.

Intern | MResult Services Pvt Ltd (Remote) Jan 2025 – Jun 2025

- **Financial Document Management Tool** - Directed stakeholder interviews and led user flow mapping, wireframing, and prototyping, then built the SharePoint React (SPFx) front-end that transformed a manual folder-based filing process into a tagged, searchable system - cutting manual effort by ~60%.

SKILLS

UI/UX Design: UX Design, UI Design, Product Thinking, User Research, Competitive Analysis, Personas, Information Architecture, User Flows, Journey Mapping, Wireframing, Interaction Design, Prototyping, Usability Testing, Design Systems

Tools: Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop, Framer, FigJam, Miro

Front-End Development: HTML, CSS, React, SharePoint (SPFx)

PROJECTS

BiteBuddy - Food Delivery Mobile App (Personal)

- Engineered an end-to-end mobile food-ordering experience from user research and competitor analysis through high-fidelity prototypes to resolve choice overload and close a gap in nutritional guidance, validated the design through usability testing.

Venula - Movie Streaming App (Personal)

- Built a movie-discovery application - from wireframes through interactive prototypes that recommends movies by mood, genre, and viewing companions, grounded in user research, to streamline how users find something to watch.

EDUCATION

Master of Computer Applications 2025
NMAM Institute of Technology, NITTE University

Bachelor of Computer Applications 2023
St Aloysius (Deemed to be University)

CERTIFICATIONS

- Figma for User Interface and User Experience (UI/UX Design) - Udemy
- Essentials User Experience Design, Adobe XD UI/UX Design - Udemy
